Professional Resume

Computer Science student seeking an internship / career in Cybersecurity, Data Science, and/or AI development. A proactive and resourceful team player with a strong work ethic, eager to learn, adapt, and expand technical skills in a dynamic environment.

PROFESSIONAL EXPERIENCE

Intern

May 2025 - Jul 2025

Tacilent.ai | Remote

AI & Risk Management Startup

- Applied risk management principles in real-world scenarios, enhancing data-driven decisions through an Excel framework.
- Streamlined workflow efficiency by organizing and maintaining crucial files and reports, including data scraped from RSS feeds.
- Managed data integrity and structure within Excel for large datasets sourced from RSS feeds, preparing them for further AI analysis.

Intern

May 2024 - Jul 2024

Cential Consulting | Remote

GRC & Risk Management Firm

- Learned about and worked in Archer and OnSpring. Learned and would even make applications and third-party profiles
- Set up meetings, scheduled meetings, and took notes on meetings on either internal company meetings or meetings with clients.
- Updated relevant information on outdated material. Would help sort out any task given by the intern manager or other partners/employees of the company.
